New Spa Partnerships for Hotel St-Barth Isle de France ...

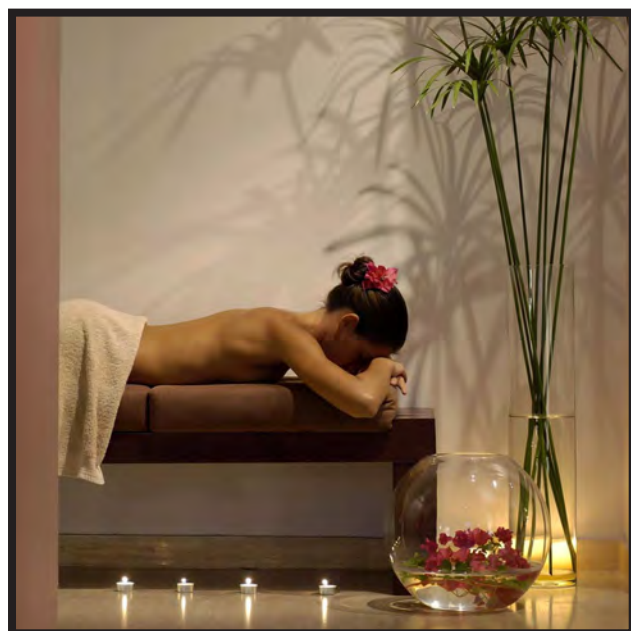

As one of the world's most fashionable beach hotels, Hotel St-Barth Isle de France simply has to keep its finger on the pulse when it comes to the beauty treatments it offers. Its super-gorgeous and style-conscious clientele wouldn't have it any other way.

So now this exquisite little escape on the edge of Flamands Beach in St. Barths has developed a couple of exciting new spa partnerships.

Nowadays Natura Bissé from Spain and [Intraceuticals](#) from Australia are the two companies responsible for keeping IDF's guests smooth, silky and ready for their close-ups...

And just in case a little therapeutic-grade oxygen and hyaluronic acid wouldn't go amiss, they can also take advantage of the [Intraceuticals](#) skincare range, a professional grade product that's a favourite with plenty of ladies (and gentlemen) in the public eye.

Isle de France's stylish little spa is tucked away in the gardens, most of the treatments performed in one of four different rooms. But an outdoor pavilion is also available if you fancy being prodded and pumelled to the sound of birdsong.
