

Remède Spa at The St. Regis San Francisco Introduces Intraceuticals® Infusion Oxygen Facial & At-Home Care Products

San Francisco's Only Forbes Four Star Spa Offers Guests & Locals The Treatment of the Stars and the People Who Want to Look Like Them

Remède Spa at The St. Regis San Francisco, the city's only Forbes Four Star Spa, is pleased to unveil the **Intraceuticals®** Infusion Oxygen Facial, Rejuvenate Course Series, and at-home care products. A favorite of A-list celebrities and an ideal alternative to topicals or procedures, **Intraceuticals®** Infusion is designed to leave skin rejuvenated with improved firmness and noticeable lift.

"Remède endeavors to provide spa guests with experiences that allow them to look and feel their best," said Remède Spa General Manager Deborah Larsson. "We are delighted to introduce **Intraceuticals®** Infusion at Remède, which shares our commitment for customization, and we are confident that our customers will be wowed by the results afforded by the Oxygen Facial, Course Series, and at-home care products."

Remède Spa will offer guests the **Intraceuticals®** Infusion Rejuvenate treatment, which promotes natural collagen and elastin production to improve skin texture and visibly smooth fine lines and wrinkles...

The ideal gift for Mother's Day, in just one treatment, there is a younger, firmer, undeniably lifted skin. With a series of treatments and **Intraceuticals®** Infusion at-home care products offered at Remède Spa, the results rival any procedure. Whether it is for a wedding, gala, or night on the town, **Intraceuticals®** Infusion treatments have no down-time or recovery period and makeup may be applied immediately after treatment, making it an absolute must before any event...

Intraceuticals® Infusion is the only treatment in the world that delivers therapeutic-grade oxygen and specially formulated serums deep within the skin via pressurized oxygen to reach and transform skin layer by layer, inside out. Part of the secret is a special low molecular-weight hyaluronic acid, an ingredient naturally found in the skin, which allows maximum penetration along with a nourishing antioxidant blend and specific treatments for common skin problems. The unique technology and specially formulated technique of the **Intraceuticals®** Infusion leave skin looking noticeably brighter, firmer, and more flawless immediately following treatment. Even more lift and luster can be seen as results intensify a few hours later...
