

## The Peninsula Spa Launches the Rejuvenate Oxygen Infusion Facial

From 1 May 2012, The Peninsula Tokyo's spa introduces the Rejuvenate Oxygen Infusion facial by **Intraceuticals**. Using two specially formulated serums – Atoxelene and Rejuvenate – each are delivered deep within skin via pressurized oxygen to transform each layer, inside and out. Skin is visibly younger and firmer with one treatment.

An alternative to injections, Atoxelene targets expression lines and wrinkles to re-firm and re-fill under the eye and contour the lips. Rejuvenate promotes natural collagen and elastin production to improve skin texture and smooth fine lines and wrinkles. By delivering these proven skin-savers deeper into the dermal structure, the effects of the Rejuvenate Oxygen Infusion facial are supercharged, immediate and long term. The serums stimulate an osmotic response causing cell renewal and strengthening of collagen and elastin fibers, which result in immediate and intensive hydration. Skin becomes steadily firmer, brighter, and refreshed within 24 hours following each treatment.

The **Intraceuticals'** infusions technology is the leading-edge result of extensive scientific research at universities in Australia. Used worldwide in medical offices to treat and visibly improve common skin problems such as acne, rosacea, premature aging and severely dry skin, **Intraceuticals'** infusion technology is used as an adjunct and catalyst to cosmetic lasers, surgical procedures and professional treatments such as micro dermabrasion.

The Rejuvenate Oxygen Infusion facial is for one hour and 20 minutes, and is priced at JPY 31,000, including tax and service charge.

The Peninsula Spa is open daily from 10:00 am to 10:00 pm. For more information or reservations, please contact The Peninsula Spa at (81-3) 6270 2299, e-mail: [spaptk@peninsula.com](mailto:spaptk@peninsula.com) or visit [peninsula.com](http://peninsula.com).
